**Exhibit A**  
**The City of Euless**  
**Tax Abatement Application**

**About the application...**

The Tax Abatement Application provides the City with specific information on the project. The information requested in the application is designed to address the criteria developed within the City of Euless Tax Abatement Policy. The information serves as the basis for fiscal analysis and overall project evaluation. This evaluation is provided to Council Members and serves as a source document during City Council deliberations.

**The application and the agreement...**

Specific information from the application (like value of new investment) is incorporated into the Abatement Agreement. Since the agreement is a binding contract it is important that each question on the application be **answered in full**, and as realistically as possible. Put simply, the application is part of the process from start to finish so you will want to make sure you are comfortable with the contents.

**When is the application final...?**

The answer to this question is very simple: When you tell us, "It's Final." It is not uncommon for a property owner(s) to submit numerous applications as drafts for information and evaluative purpose only. As conversations continue, the property owner will submit a finalized version of the application that includes all of the commitments agreed to during the discussions.

**What about confidentiality...?**

Section 312.003 of the Texas Tax Code makes confidential information provided to the City as a part of this application that describes the specific processes or business activities to be conducted or other property to be located on the property for which tax abatement is sought. Such information may not be subject to public disclosure until the tax abatement agreement is executed. The City is subject to disclosing most records and documents upon request under the Public Information Act. Accordingly, please clearly indicate and mark any proprietary information, trade secrets or other matters you consider confidential information in your application.
